Event In-charges	Dr.P.Chinnaraj, Associate Professor, Maths Department Dr.D.Thangaraju, Associate Professor, Physics Department Dr.S.Gandhimathi, Associate Professor, English Department
No. of Participants	42

1. The NSS unit organized an engaging multi-round event titled “Breaking Bad – Logic, Coordination & Time Challenge” to test participants’ analytical thinking, memory, teamwork, and problem-solving skills.
2. The first round consisted of observation and logic-based activities including a picture puzzle influenced by dice rolls and a numbered disc placement task, challenging participants’ reasoning ability and accuracy.
3. The second round focused on time sense and coordination through activities such as a human countdown exercise and a balloon alignment task using only a straw, promoting precision and control.
4. The semi-final round tested memory, coordination, and teamwork through cup pattern recreation, blindfolded cup collection, and verbal pattern alignment tasks.
5. The final round featured intense challenges including a sling puck game and a pin-finding task using quiz-based number lock solving, determining the overall winners based on performance.
6. The event successfully enhanced participants’ logical thinking, coordination, teamwork, and time management skills, while fostering a spirit of healthy competition and active participation.
